2. Alumni Association

Who is better for today's students to aspire to than those who have walked in their very shoes?

Not only did the students help to write our history, but through their continued partnership, they will be an important voice in developing our future. As mentors, they will bring expertise and inspiration to our current students. As volunteer leaders, they will be able to provide invaluable insights and thoughtful direction. And as scholarly adults and accomplished professionals, they will represent the model of excellence.

The alumni association is yet another initiative that aims to strengthen the bond among the long and distinguished list of people in the alumni body, as well as with its Alma Mater.

All students who have been part of the academy may become members.
